

Aimetis E7000 Physical Security Appliance™

Aimetis E7000 Series Physical Security Appliance (PSA)

combines purpose-built hardware with Aimetis Symphony video management & analytics software, creating a high performance intelligent video surveillance platform for installations up to 24 cameras. Its robust fanless design and flexible installation options makes the E7000 Series an ideal solution for space constrained environments such as small footprint retailers, gas stations, and harsh environments.

Software viewing options:

Windows Client, Web, iPhone / iPad and Android.

Key Benefits

✓ Quick and Simple Installation

Designed to minimize installation and setup time, the E7000 requires no software installation or activation. The onboard DHCP and SMTP servers make configuration of isolated camera networks easy.

✓ Easy to Use

With the industry's best combination of video recording, management, analytics and reporting, users benefit by using a single GUI that eliminates the need to jump between multiple vendor products.

✓ Flexible Storage Options

Record video to almost any storage device, including: internal, external (via eSATA), NAS, camera SD card and more. By supporting local camera recording, the overall scalability and availability of the video system increases by allowing cameras to function as redundant storage devices.

✓ Purpose-Built Hardware Platform

The Aimetis E7000 Series is designed for flexible deployment in any scenario. The embedded Intel® Celeron® or i7 processor provides unsurpassed performance with very low heat generation and minimal cooling requirements, resulting in improved stability and longevity. A tough aluminum case with heat dispersing fins draws heat away from the processor and enables the system to operate in environments not suitable for commercial off-the-shelf PCs. To provide installation flexibility, the E7000 can be wall or rack mounted.

Features and Specifications

Model	E7020A	E7040A	E7060A
CPU	Intel® Core™ i7-2655LE 2.2 GHz		
RAM	4GB		
OS	Win 7 embedded on 16GB Flash Drive		
Storage	2TB	4TB	6TB
Symphony Licenses:			
Standard	6	14	22
Enterprise	2	2	2
Ethernet	2x GbE		
USB	4		
Integrated I/O	8/8		
Monitor Output	VGA		
Extended storage	eSATA, NAS		
ONVIF	Yes		
Network Protocols	DHCP, SMTP, SNMP		
Operating Temp.	0 to 40°C		
Dimensions (mm)	277W x 190D x 67H		
Weight	4.3KG		
Input Voltage	12VDC		
Compliance	CE, FCC, RoHs		
Mounting Kit	Wall (included) Rack (sold separately)		
Warranty	2 year		

Key Features

- Wide range of supported camera manufacturers
- Megapixel camera support
- Large internal storage capacity
- Wall or rack mount options
- Small fanless form factor
- No software installation or activation required
- Ready for video analytics
